

DOCTORS YOU KNOW. HOSPITALS YOU COUNT ON.

The strength of the Health Alliance Northwest (HANW) provider network means our members have access to care where it's most important: where you live, work and play. The following is our North Central Washington network of providers. **Virginia Mason in Seattle is also in-network.**

Our HANW POS plans allow you to seek care with out-of-network providers as well. If medical need necessitates, the care may be covered at in-network member cost sharing. Please call (877) 649-1314 to learn more.

Below are some clinics and hospitals you probably recognize. Please access our full provider directory at HealthAlliance.org/find-care to ensure your doctor is on our list.

Know When to Get a Referral

Although your health plan doesn't require a referral to see an in-network specialist, it is always good practice to check with your primary care doctor before seeking specialty care.

Brewster

- Confluence Health | Brewster
- Family Health Centers
